

SECOND DAY OF Y. M. C. A. DRIVE EXCEEDS FIRST

Campaign Workers Report Total of \$5,131.50 for Tuesday.

The report on the second day of the Y. M. C. A. drive for \$25,000 shows an increase of \$500 more than on the first. Campaign workers reported \$5,131.50 for Tuesday, while the amount for Monday was \$4,656.

The largest report was made again by division Y of the campaigners headed by L. A. Walker, at the report luncheon given at the Y. M. C. A. His campaign C. Pretz, W. W. Boyden, A. E. Beyer, E. F. Rodgers and Wm. Elliott reported subscriptions amounting to \$2,085.50. Division M came second, reporting 22 subscriptions, with a total of \$1,122. Division C had 19 subscribers and \$258 while division A came last with 22 subscriptions for \$523.

Seventeen members of the Rotary club, who had been appointed as a special Rotary committee in connection with the drive were present at the luncheon. The men were appointed by Pres. Ward L. Mack of the Rotary club. It is expected that both the Rotary club and the Lions' club will help in the drive.

Shaffer's Address.
"I have often been asked why I have spent so much time and money on the Y. M. C. A. rather than on any other organization," J. I. Shaffer, president of the association and general manager of the drive, said in a talk at the luncheon this noon. "I do because I am so tremendously interested in the city of South Bend today and still more interested in the South Bend of tomorrow and recognizing that the boys and girls of today shall be the South Bend of tomorrow, I feel that the most logical way to secure the desired result is to help every boy and girl in the city to develop every possible talent that has been given them—physical, social, educational and spiritual, in order that they may be more useful to themselves and to the community, and that the city may maintain, and possibly even improve its reputation as a center of great and exceptionally well managed institutions as a city of high ideals and purposes, and as a city which is the home of fine sturdy manhood and womanhood."

"Believing in this, I realize that unless I do my full share to bring about the conditions which I desire, that I am asking someone else to carry more than his just share of the burdens of good citizenship. More than that, I realize that if I leave undone, may remain undone tomorrow, I have naturally a very immediate interest in the young men who will not only be factors in the educational, social and spiritual life of the city, but who will constitute the industrial, commercial and financial group, and whose ability or lack of ability will determine whether or

not South Bend shall be a great center of business conducted upon a high plain."

Readers Great Service.
"From my observation of the work of the Y. M. C. A. I find a great service rendered along a great many different lines, and beginning with the youngest, I find free medical and corrective gymnastics for crippled children, free swimming instructions to the boys of the Orphan's home and annual free swimming campaign to all boys of the city reaching several thousand each year, free supervision of Camp McCord for employed boys, the great work of Corey lake where the association operates Camp Eberhart, the best known boys' camp in the middle west. In the department of the association building, I find a diversity of games played under supervision, and this same principle I find very strongly emphasized in the extensive gymnasium groups where the boys are taught to fight to the last ditch, to fight square, and to lose like men, if lose they must. I find in the big gym a diversity of groups of older men who are without doubt adding years to their lives by carefully planned exercise, and who are better fitted for each day's work because of the beneficial exercise secured in the gymnasium, which would not otherwise be possible to them."

"I find the gym a splendid center for social gatherings of the young people of our schools, affording them the best of gymnasium facilities in wholesome environment. I find that one afternoon of each week the swimming pool with its pure, clean chloride filtered water is set aside for the use of the girls of the Y. M. C. A. I find that 75 different groups, social, religious and educational, find here a wholesome meeting place, and as I think of the entire scope of the work, I would be inclined to ask myself the question, 'Why shouldn't I spend so much of my time and money on the Y. M. C. A. as I am doing.'"

The captains who are working in the drive are 30 business men of the city who have given all their time for the last two weeks in order to help the Y. M. C. A. raise the \$25,000 which is needed in order that the association may continue its work during the coming year. Last year, in addition to the time and work they put into the campaign, they subscribed over \$6,000.

Wife's Love for Finery Leads to Divorce Court
Charges that his wife Annetta has constantly complained because he was unable to provide her with the finery of some men's wives and that after abandoning him she finally moved all of the furniture from his home to a house where he had rented, are made by Zephie H. Williams in a petition for divorce filed in Superior court No. 2 Wednesday.

Williams states in the complaint that he gave his wife the greater part of his earnings and that her dissatisfaction with his means caused her to curse and swear at both him and their 15-year-old son Charles M. much to their humiliation as the neighbors heard her. They were married July 2, 1904 and separated July 6, 1922, according to the complaint.

MAYOR SEEBIRT TO PRESIDE AS JUDGE IN WITTNER TRIAL

Case for Revocation of Milk Dealer's License Up Next Monday.

Mayor Eli F. Seebirt will have his first experience as judge since heading the city administration when a hearing will be held in his office next Monday for revocation of a milk dealer's license.

A capias has been issued to John W. Wittner, local milk dealer and ice cream manufacturer, 622-634 S. Michigan st., to appear before Mayor Seebirt to answer such a complaint, filed by City Atty. L. W. Hammond, Wednesday.

Dirty milk, a product delivered by the Wittner concern, at different times for several weeks past, disregard of warnings by health department officials and an arrogant attitude in contempt of orders to abide by the pure food laws, are allegations made by the complaint which asks the revocation of his milk dealer's license. A revocation would mean quitting of milk delivery by Wittner.

Over Jailor's Head.
The action taken by the health department through the city attorney is tantamount to taking their case against Wittner "over the head" of Fred Floyd O. Jailor. Last week, an affidavit signed by Dr. J. S. Olney, chief of food and dairy inspection, resulted in Wittner's arrest. Following arrest, Fred O. Jailor disregarded the complaint and took upon himself dismissal of the case against Wittner without consulting Olney.

The inspector had been informed that the case in city court had been set for Monday and was on hand to appear against the milk dealer. Informed that the case had previously been dismissed, he sought the secretary of the board of health, Dr. C. S. Rosenbury and together registered complaint with the city attorney. Instead of a fine covering a single day's offense, however, the health department officials proposed to institute proceedings which would compel the "prosecutor's friend" to quit business.

The allegations against the local dealer come within the purview of the state's pure food laws and the practice of handling impure milk as complained of against Wittner is such as to warrant an immediate suspension of business. Sand and noticeable dirt was discovered in milk delivered by Wittner as late as last Monday, charges the milk inspector, Dr. Olney.

The Wittner concern, it is said, deals in milk with stores only.

WANT SESSION

WARSAW, Ind., Sept. 20.—The Warsaw Kiwanis club at a meeting last night launched a campaign to bring the 1923 state meeting of Kiwanians to this city.

N. D. Endowment Drive Committee Reports Tonight

Progress and Future Plans to be Outlined at Oliver Banquet.

A banquet for the executive committee of the Notre Dame endowment drive in South Bend will be given by the university officials in the Oliver hotel at 6:30 o'clock Thursday night at which time a report on the progress of the drive will be made and plans for its continuance formulated.

Speakers for the occasion will be Rev. John Cavanaugh, former president of Notre Dame; Rev. James Burns, ex-president, and now director of the "greater Notre Dame" movement; Rev. Mathew Walsh, president of the university, and Rev. J. C. McGinn, secretary of the endowment drive.

Fifty of the city's most prominent friends of the university are expected to attend and Pres. Walsh will report on the enrollment and prospects of Notre Dame for the scholastic year just started.

WORKS BOARD WILL CAUTION PLUMBERS

City Officials to Demand Careful Completion of All Contracts.

Master plumbers, heads of concerns here that have done work for the city and who propose to bid for work in the future, will be called in a body before the board of public works some time next week and hear emphatic demands from city officials for the proper performance of their contracts.

Plumbers have installed water connections on awarded proposals and in several instances failed to renew the base of pavements where connections have been made in the streets. Cavities have formed as a result of this careless practice and the work of repair has been entirely thrown on the street department. Recently board members inspected a job being completed and discovered workmen's neglect of the pavement concrete base. On this instance, officials of the O. K. Plumbing and Heating Co., 318 Chapin st., were called before the board and ordered to make the proper repairs.

At other places where water connections had been installed, cavities formed in the streets. "Contracting plumbers will be required to make the repairs to the base of pavements they have cut," stated L. B. Slaughter, president of the board of works, Wednesday.

No date has yet been set for the meeting.

OFFER MEANS TO SELL FORD COAL

Ray of Hope for Opening of Ford Plants Seen in New Order.

DETROIT, Sept. 20.—(By T. P.)—A ray of hope was seen by thousands of idle Ford employees today in the new order of the interstate commerce commission which now permits movement of coal to all classes of consumers.

E. G. Leibold, Henry Ford's secretary, told the United Press today that the Ford Motor Co. is now in a position to reply to an offer from the Maine Island Creek Co. of West Virginia to supply the Ford company's needs at a price acceptable to them.

The new order, No. 25, which emanates from Washington, now permits the use of open top cars for transportation of coal and eliminates special preference to public utilities and other classes specified in the previous order No. 23.

A statement gleaned from a reliable source at the Ford plant today was to the effect that hundreds of Ford mechanics were to be notified shortly to prepare for a resumption of work early next week and that the entire working force were to be assimilated as rapidly as conditions would permit.

IT IS A PLEASURE

To call at a place where you can find what you want after this shopping all around town and not getting what you want is hard on the nerves. You won't need nerve tonic and spend all your money if you can get it in the habit of coming to our supply store. We will be glad to show you that it will be a pleasure to call again. Mishawaka to Have Clinic Every Thursday Afternoon

Announcement that the Tubercular clinic in the city hall at Mishawaka will be open every Thursday afternoon starting tomorrow at 2 o'clock, was made Wednesday. Headquarters will be in the Red Cross room of the city hall and Dr. St. Clair Darden of Healthwin and Miss Merle Doty, nurse, will be in charge.

Last year the clinic which is operated under the auspices of the Tubercular League of St. Joseph County, was open on every other Wednesday and closed down entirely during the summer just passed.

Overheated Stove Results in Run for Fire Fighters
Four trucks from the Central fire station were called to the home of G. Harrell at 450 Lincoln way S. at 9:30 o'clock Wednesday morning as a result of an oil stove becoming overheated. Practically no damage resulted due to the quickness with which the blaze was extinguished.
